Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	0
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>The PAQ did not identify clients who met the criteria under the targeted interview categories as physically disabled. Documents reviewed at the facility, observations onsite, and conversations with other clients and staff did not disclose any information about physically disabled clients being housed there. I spoke with the Site Director to verify there weren't any physically disabled clients in the facility.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

115.241	Screening for risk of victimization and abusiveness
	<p>Auditor Overall Determination: Meets Standard</p>
	<p>Auditor Discussion</p> <p>As outlined in policy #8000.240, a client is screened for risk of sexual victimization or sexual abusiveness during the intake screening. The general practice is to complete the vulnerability assessment during intake; if the intake process can't be completed upon arrival, the confined person is placed on a twenty-four-hour hold pending the completion of the assessment before being assigned a room. Eight of the ten clients interviewed confirmed being screened upon admission and within twenty-four hours of arrival, one client confirmed being screened within forty-eight hours, and one client said they were not screened. Completed screenings were reviewed to verify that confined persons were screened for vulnerability. Staff interviewed confirmed that vulnerability assessments are generally completed upon admission; if not, the assessment is completed within forty-eight hours.</p> <p>The objective vulnerability assessment includes this standard's nine requirements in paragraph (d). The screening also considers prior acts of sexual abuse, prior convictions for violent offenses, and a history of previous institutional violence or sexual abuse known to the Agency.</p> <p>Risk levels are reassessed when warranted due to referral, request, an incident of sexual abuse, or receipt of additional information related to a confined person's risk of victimization or abusiveness. The staff interviewed confirmed that a case manager meets with the clients at least once a month. Two of the ten clients interviewed were admitted two days before the audit; two confirmed a monthly meeting with a case manager, and six said there wasn't a reassessment within thirty days. A review of case files verified there is a monthly meeting with a case manager. The case manager goes over several topics with the confined person during the monthly meeting, which includes the reassessment.</p> <p>Facility policy #8000.240 states there will be no discipline for not cooperating. The staff interviewed confirmed confined persons aren't disciplined for refusing to answer questions on the vulnerability assessment. The ten clients interviewed confirmed no discipline was associated with responding to the vulnerability assessment.</p> <p>The PREA Coordinator confirmed the vulnerability assessments are securely stored in the confined person's case note folder.</p>

Department of Corrections (MNDOC) Work Release Program, and the Intensive Supervised Release Violators. The facility has not had a lesbian, gay, bi-sexual, transgender, or intersex client reside at its facility. The PREA Coordinator confirmed that more vulnerable confined persons would be given room assignments closer to the staff office. Clients attend programs, receive medical treatment, and work in the community.</p>

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility has established multiple ways for confined persons to report sexual abuse, harassment, retaliation, and staff neglect or violation of responsibilities that may have contributed to an incident - the PREA intake form and the resident handbook outline confined persons' options to report sexual abuse and harassment privately. Policy #8000.250 states residents may report sexual abuse or harassment incidents anonymously or to any staff member. Residents may report verbally, in writing, anonymously, or have a third-party report. The resident handbook outlines how and to whom confined persons can report allegations of sexual abuse or harassment. Confined persons can submit a grievance, call 911 from a facility phone or cell phone, call the Minnesota Department of Corrections Sexual Assault Hotline, or report directly to any staff or supervisor. The ten clients interviewed said they would report an incident to staff.</p> <p>Confined persons can report to an agency not part of Damascus Way by calling 911 from any telephone (telephones in the facility are not recorded), the Olmsted County Victim Service Center, and the Minnesota Department of Corrections Sexual Assault Hotline (MNDOC Sexual Assault Hotline). The Olmsted County Victim Service Center and the MNDOC Sexual Assault Hotline will immediately forward any reports to the facility allowing the caller to remain anonymous upon request. The PREA Coordinator confirmed that the Agency the confined person reported to would contact the facility. The ten clients interviewed knew the options available to report sexual abuse and harassment.</p> <p>The staff interviewed knew their responsibility to accept reports made verbally, in writing, anonymously, and from third parties as outlined in facility policy</p>

Third parties, fellow residents, staff members, family members, attorneys, and outside advocates can assist residents in filing a grievance.
